

Actar D-fib® CPR/AED Manikin

The Chest has been laboratory tested to over one million mechanical compressions for durability.

CPR Teaching Features:

- **JAW THRUST**, head tilt, and disposable airway
- All landmarks: Adam's apple, carotid groove, lower rib, nipples, and navel
- Chest compressions
- Adult and child CPR
- Abdominal thrusts
- No cleaning of internal parts necessary
- **ONE Manikin Per Student**
 - ☑ More practice time maximizes psychomotor skills
 - ☑ Reduces the risk of cross-contamination
 - ☑ Maximizes class time efficiency
- Latex free

AED Training Features:

- Compatible with all brands of training electrodes
- Electrodes are easy to remove
- All landmarks: lower rib, nipples, and collar bone
- Electrodes don't interfere with chest rise or chest compressions
